

**Industries La Belle**

Division de La Belle Vénitienne inc.

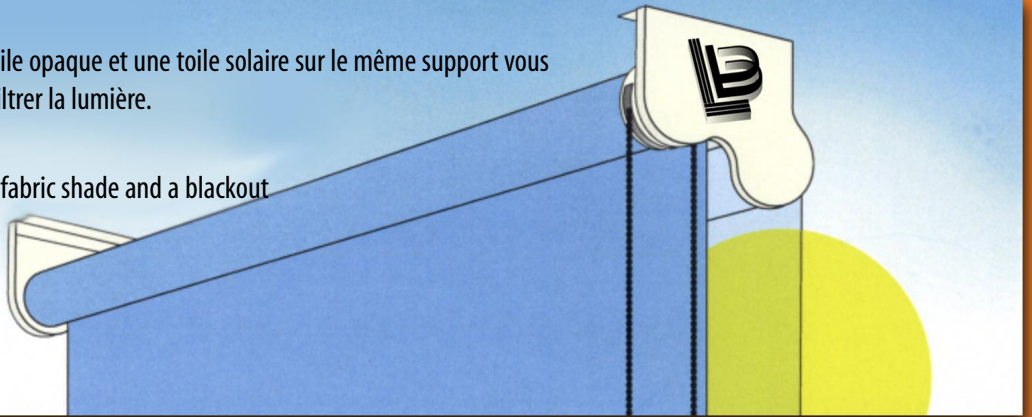

# MÉCANISME D'ENCRENAGE CLUTCH OPTIONS

## SUPPORT DUO

Le Support Duo vous permet d'installer une toile opaque et une toile solaire sur le même support vous permettant de bloquer complètement ou de filtrer la lumière.

## DUO SHADE

Duo Shade allows installation of a sun control fabric shade and a blackout shade on a single mounting bracket providing both light filtering and room darkening. Compact size permits two shades to fit in a smaller room projection than two individually installed shades on the same window.

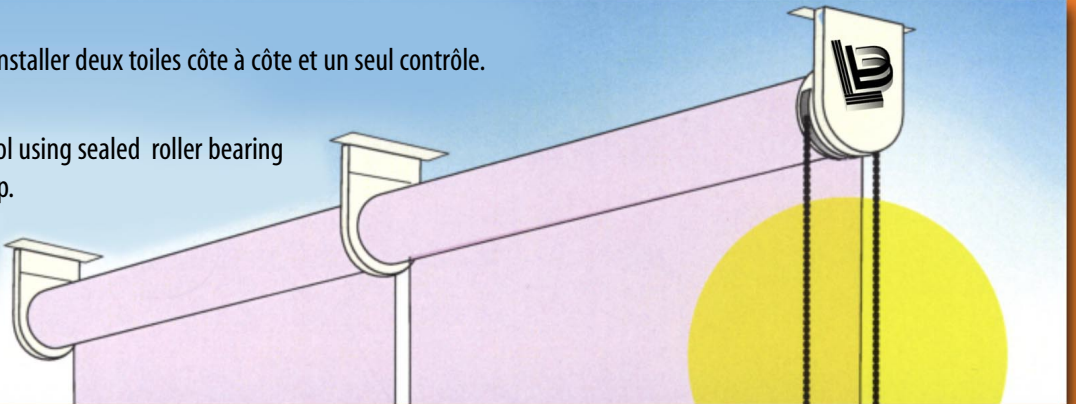

## SUPPORT INTERMÉDIAIRE

Le Support Intermédiaire vous permet d'installer deux toiles côte à côte et un seul contrôle.

## INTERMEDIATE BRACKET

Join 2 roller shades together with 1 control using sealed roller bearing with recessed end caps to reduce light gap.

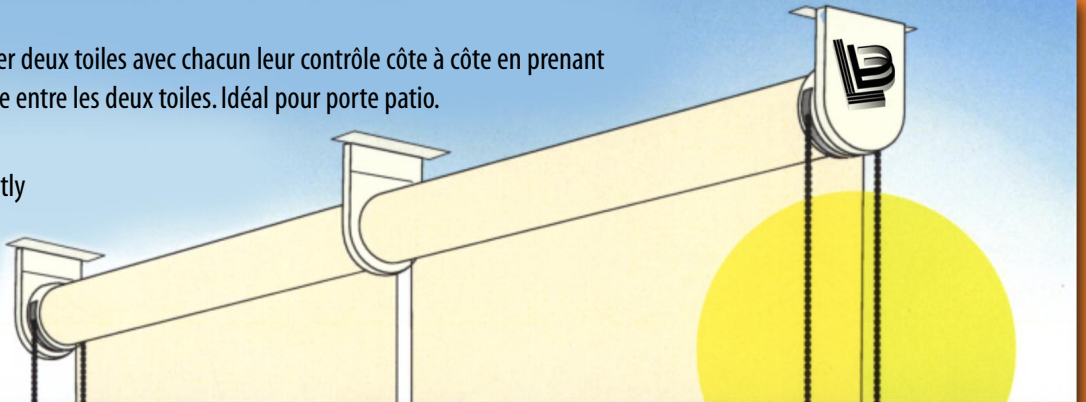

## SUPPORT CENTRAL

Le Support Central vous permet d'installer deux toiles avec chacun leur contrôle côte à côte en prenant moins d'espace, ainsi réduisant la lumière entre les deux toiles. Idéal pour porte patio.

## CENTER SUPPORT BARCKET

Center support bracket for 2 independently operated shades with 2 spring loaded recessed end caps to reduce light gap.

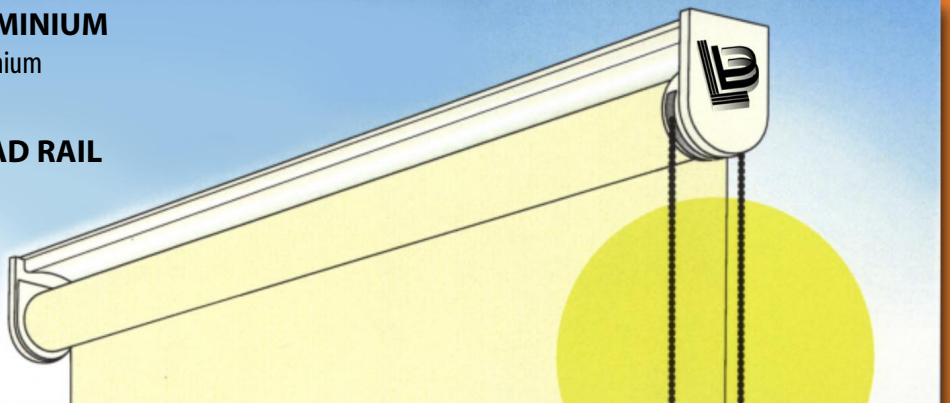

## TOILE À ROULEAU AVEC TÊTE EN ALUMINIUM

Le mécanisme de la toile à rouleau et la tête en aluminium en un seul morceau facilite l'installation sur cadrage.

## ROLLER SHADE WITH ALUMINIUM HEAD RAIL

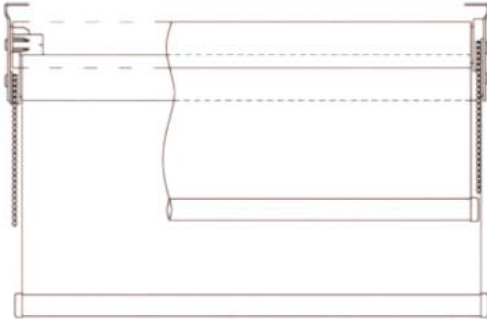

Roller Shade with an aluminum head rail system for easy installation and removal.
